

Dear \_\_\_\_\_,

Welcome to the Rock Club! The Rock Club started from our love of collecting interesting and exciting rocks. Because we enjoy collecting and sharing fun and interesting rocks, we thought it would be great to share our interests with YOU!

Being part of the Rock Club gives you a chance to get outside and search for hidden treasures. Enclosed with this letter is a special rock I found just for you. Whether you already have a collection of rocks or this is the first rock in your collection, we hope you find it fun and interesting to join the Rock Club.

To continue to be part of our club, please go outside and find 3 rocks you think are cool and interesting, identify where you found that rock (e.g. backyard, on a hike, digging in a mine), and mail to 3 friends you think would want to be in the Rock Club.

Your Friend,

\_\_\_\_\_
